985 *clients reached through the Driscoll's Mobile Health Clinic*

IMPROVING ACCESS TO WOMEN'S HEALTHCARE

During the third quarter, the Impilo Yabafazi (Women's Health) Mobile Clinic provided essential women's healthcare services to 181 women, supporting early detection, referrals for identified cervical abnormalities, HIV and other health concerns.

It is important to note that at least 40 women received cervical screenings for the first time.

Through these services, women can access vital screenings, receive timely referrals and take proactive steps towards protecting their health and wellbeing.

MARSHALENO IS BUILDING A FUTURE

What began as a short-term placement soon became a turning point. Marshaleno's warm personality, enthusiasm and ability to connect with guests quickly stood out, and following his practical experience, he was offered full-time employment as a Hospitality Host.

"His training and knowledge of the industry definitely influenced our decision to appoint him full-time," explains Salome Geldenhuys, Human Resources and Sustainability Manager at Creation Wines.

"His personal development really showed in his attitude and work ethic, and we felt he had the necessary skills to be employed."

Marshaleno's story demonstrates how investing in young people from rural communities can help turn potential into opportunity and create a pathway towards a brighter, more independent future.
